If only
he knew
where to
look

Lots of folks hunt the hard way for information
that is *right at hand* if they knew where to look.

They buy with part knowledge of those who sell; they
guess at addresses; they waste postage and misspell names.

* * * all of which might be avoided by learning how to use the
scientific compilation of information in the *City Directory*.

If only
he knew
where to
look

Lots of folks hunt the hard way for information
that is. *right at hand* if they knew where to look.

They buy with part knowledge of those who sell; they
guess at addresses; they waste postage and misspell names.

* * * all of which might be avoided by learning how to use the
scientific compilation of information in the *City Directory*.

No question about it The public at large look upon the man
who advertises as an enterprising man If he were not, he would
not advertise City Directory advertising pays big dividends
THE BUSINESS HOUSES who advertise in the City Directory
are reliable and will give you a square deal, patronize them.
